STONES: Boss hopes for strong end to campaign Bartlett admits 'we've had a poor season'

GORDON Bartlett admits by most people's standards Wealdstone have had a poor season, but he remains confident a top-half finish in National League South is possible.

The Stones eased their relegation fears on Monday evening with a 3-0 win over Hayes and Yeading United at The Vale, which moved them seven points clear of the relegation zone.

An own goal from former Birmingham City defender Darren Purse, plus strikes from Scott Davies and Matty Harriott, sealed the win.

Sat in 13th place, Wealdstone are only three points away from the top half. They would be there already were it not for games against Oxford City, Truro City and Gosport Borough in which they blew leads only to draw late on.

The Stones have lost just one of their last 14 in the league and Bartlett, whose takes on Oxford City away on Saturday, believes they can finish in the top half.

He said: "I feel we need another couple of wins before we can relax. People are talking about avoiding relegation but I've not spoken about that all season.

"My target has always been fin-

ishing higher than last year and that is all I've spoken about. If we win against Oxford City we go two points behind them and they're seventh. People have looked at the negatives but I try all the time to look for the positives.

"We had that run of games where we kept conceding late goals. Without that we would be higher. "With three more wins from those home games that would put us on the edge of the play-offs already. "We've had a poor season - I think most people would say that. But we're not very far away from making it a good one."

Dale Binns was man of the match on Monday evening as Wealdstone put Hayes to the sword.

But midfield maestro Davies made the first and scored the second to make it three for the season. Bartlett expects more from the former Reading and Crawley Town midfielder, though.

"Scott Davies has got the ability to be scoring 15 goals per season," explained Bartlett. "So seeing him start to score recently is good but it's only what I

think he should be doing from the off - and that's praise as well as criticism.

"He's well and truly capable but at times, maybe, he's looking for the spectacular."

Wealdstone continued their impressive form against the division's high-flyers on Saturday with a 2-2 draw against second-placed Maid-

stone United. Goals from Harriott and Johnny Wright secured a point for the hosts, who included West Ham United loanee Nathan Mavila on the bench.

The winger, who made eight appearances on loan at Wealdstone last term, has been joined on loan at The Vale by Swansea City striker James Demetriou.

Boro fail to build on victory

HARROW TRUNCED BY KINGSTONIAN AFTER BEATING GRAYS ATHLETIC

HARROW Borough were unable to follow up last week's win against Grays Athletic as they lost 5-2 at Kingstonian on Saturday in the Isthmian Premier Division.

It is now one win in nine for Steve Baker's side, who are two places and nine points above the relegation zone.

The Reds were on the back foot after just 23 seconds. Jack Turner, tormentor-in-chief against Metropolitan Police recently, created the goal and George Wells netted.

It was 2-0 after five minutes. This time Pelayo Gomez-Pico burst through the backline to finish with ease.

Five minutes later the game was effectively over as a contest as the K's grabbed a third; Tyrone Smith finishing off from a tight angle.

Remarkably, considering the porous nature of the Boro defence until that point, the home side were made to wait until the 54th minute to add to the score.

Gomez-Pico got the fourth, back-healing a one-two home with ease.

With 13 minutes remaining Kingstonian added a fifth, Reece Beckles-Richards turning home a low cross.

Harrow found two late consolation goals through Fejiri Okenabirhie and Harry Newman but they counted for nothing in the final reckoning.

Boro went to Leiston on Wednesday evening.

THE HAIR LOSS CENTRE?
TREATMENT therapy via High frequency/UVL

LadyGee hair loss specialist use high frequency current (ultra violet light) which stimulates the surface of the scalp by means of the HF electrodes that massages the cells of the scalp, improving the process of nourishment, stimulates local blood circulation and local glandular activity, supplies heat and is soothing to the nervous system of the scalp.

Alopecia Areata affects your hair follicles, causing patches of baldness. It's very likely that if you have only partial hair loss, your hair will grow back. The condition doesn't permanently damage your hair follicles, so even if you have hair loss in any one area for a long time, your hair may still grow back.. There are a number of treatments available at LadyGee Hair Salon.

The major benefits of UVL Therapy are:

- It encourages an increase of hair growth when follicles are present.
- It helps the progression of fine hair into more substantial growth
- UVL encourages an increase of blood supply to the scalp
- It speeds the actual growth of the hair
- The UVL acts to close the cuticle of the hair shaft making the existing hair stronger and less prone to damage.
- Treated hair becomes shinier, healthier, stronger, less porous and more resilient against breakage.
- We have had much success with our UVL therapy for the treatment of Alopecia.

If you are experiencing hair loss or an irritated scalp problem, don't just tolerate it, call the Hair-Loss specialist at LadyGee's for an affordable Hair-loss solution.
